OVERVIEW

Passionate & aspiring front-end developer looking for an opportunity to further develop skills in the industry. My decision to transition into programming was fueled by interest in web/mobile applications and from the first day I printed "Hello World" onto the console to my first Tic Tac Toe application built with Javascript, I was hooked into the wonderful world of programming.

My previous role as a consultant to advise our corporate clients on all relocation related matters for their internal moves has given me the opportunity to develop a strong set of transferrable soft skills in effective communication, collaboration between team members, vendors, and client contacts while using creative problem solving skills to ensure a smooth transition for each personalized move.

TECH STACK

- Javascript
- HTML5
- CSS
- JQuery
- Node.JS
- Express
- PostgreSQL
- MongoDB
- ReactJS
- Bootstrap
- Material-UI

PROGRAMMING EXPERIENCE

Xccelerate Full-Stack Software Engineering Bootcamp (Full-Time), Hong Kong

08/2020 – 12/2020

4-month Immersive Full-Stack Bootcamp, Projects built include:

Canvas Project – Built a 2D Paint Application using HTML5's Canvas feature built basic Paint functionality with Javascript. Designed the User Interface with CSS + Bootstrap.

Full-stack Group Project – Built a web application for travelers to experience HK culture as recommended by locals by providing an incentive-based blog platform with community contribution. Main duties were to implement and structure the database using PostgreSQL/KNEX and CSS styling.

Capstone Project – Developed a single application to allow teachers to use powerful teaching tools all in one application to teach their students and to provide a more collaborative environment across institutions. Implemented majority of the frontend design using ReactJS and Material-UI.

OTHER EXPERIENCE

BGRS – Client Service Consultant, *Hong Kong*

07/2017 – 05/2020

- Coordinate and managed over 100+ active cases providing all relocation-related services while maintaining the company's 100% SLA (service level agreement).
- Collaborated and worked with various vendors using creative problem-solving skills to answer queries and proactively advise on a case-by-case basis.
- Managed multiple weekly and monthly reports and ensured proper fees were billed to the client. Also led client status update calls and provided training to local and overseas colleagues.

ReloSmart Asia – Relocation Consultant

09/2016 – 06/2017

ScotiaBank Canada – Financial Advisor (Trainee)

02/2015 – 01/2016

EDUCATION
